## DETAIL ACTION

### *Notice to Applicant(s)*

1. This application has been examined. Claims 1-19 are pending.
2. The prior arts submitted on January 03, 2006, August 08, 2006 and November 16, 2007 have been considered.
3. Receipt is acknowledged of papers submitted under 35 U.S.C. § 119, which have been placed of record in the file.
4. It is noted that in claim 17, it should depends on claim 16 instead of 6 because it refers to an automobile. Correction is required. For the rejections below, it is assumed that claim 17 depends on claim 16.

### *Claim Rejections - 35 USC § 102*

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-19 are rejected under 35 U.S.C. 102(b) as being anticipated by Mikami et al. (6,549,840).
7. As per claim 1-10, Mikami disclose the invention as claimed which includes an internal combustion engine (see figure 1, item 14), an electric power mechanical power

input-output unit, a motor, an accumulator (see at least figure 3), and a controller includes an input-output restriction setting module, a drivable range setting module, a power demand setting module, and a driving control module as shown in at least columns 23-29 and 43-44, figures 1, 3, 7 and the related text.

8. As per claims 11-19, the limitations of these claims have been noted in the rejection above. They are therefore considered rejected as set forth above.

### ***Conclusion***

9. All claims are rejected.

10. The following references are cited as being of general interest: Abe (6,356,817), Nakamori et al. (6,647,326), Aoki et al. (7,117,071) and Okoshi (2003/0033060).
